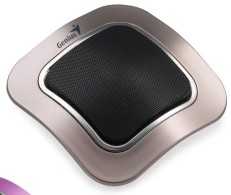
SP-i400

Magnetic Portable-Music-Player Speaker

Genius introduces SP-i400, a perfect combination of a portable MP3 player (PMP) and loud speaker. It brings you a total music solution with great sound. Just insert the SD card into SP-i400, and you can easily enjoy your favorite songs anywhere. By storing MP3/WMA music file on a SD card, you can play music without using other music processors. Control is easy, just slide the knob to turn on/off, adjust the volume, and press the function key to play or select music. SP-i400 can stick to a magnetic surface but also can attach to your notebook, a wall, or any place with the Stick-N-Go mount design. SP-i400 is mobile, it has a built-in lithium battery so don't worry about power. Also, it has an AUX-in function so you can connect to a notebook, iPad, iPod, or mobile phone through a standard 3.5mm jack. More amazing, the Genius-Link function lets you connect SP-i400 to a row of other Genius portable speakers to bring more stereo and louder sound. Two option colors: fashion metallic or elegant purple.

For more information, contact your local sales representative.



Available: **Apr. 10, 2011**
